## Company profile:

Distributor

## ISO certifications:

ISO 9001

## Company activity:

**Diagnostic Healthcare (CE Marked), Cell culture contamination control, DNA & RNA Sequencing, Enzymes for Molecular Biology, Chromosome Painting, Equipment, Sample Preparation, Molecular Cloning Kits, Transposomics, In vitro Transcription, Gene Expression Analysis, PCR, Gel Electrophoresis, Oligo Synthesis, Clinical Diagnostics**

## Company description:

Established for over 25 years, Cambio is a privately held UK company with an excellent reputation for the supply of quality Molecular Biology reagents and consumables to scientific research laboratories within universities, large pharma, biotechs, government agencies, agricultural organisations and environmental facilities.

We source products from a global network of leading manufacturers and we are extremely proud of our long-term customer and supplier relationships which drive Cambio's commitment to:

- Continuous new product introduction
- Competitive pricing
- Stress-free order placement
- World-class technical support

To meet the needs of a growing and diversifying market, we continuously add advanced Molecular Biology products to our extensive portfolio. Our current range of products includes research tools for:

Diagnostic Healthcare – Our 2010 introduction and marketing of new CE marked ELISA kits

- Cell culture contamination control
- DNA sequencing
- Enzymes for molecular biology
- Chromosome painting
- Sample preparation
- Molecular cloning
- Transposomics
- In-vitro translation
- Gene expression analysis

Whether you buy online, by telephone, or fax, customer satisfaction is our top priority. To improve your on-line experience, we hope find our new-look website a bit more pleasurable to navigate. Should you struggle to find what you are looking for, please do call or email us. We promise a fast response and competitive discounts for volume purchase.

Interesting fact:

In 1986 our founding director, Peter Dean, collaborated with Martin Evans (now Professor Sir Martin Evans) to develop the first machine to carry out PCR reactions using their patented "Intelligent Heating Block (IHB)" technology for real-time temperature control.

### Company specialty:

- Diagnostic Healthcare (CE Marked),  
Cell culture contamination control,  
DNA & RNA Sequencing,  
Enzymes for Molecular Biology,  
Chromosome Painting,  
Equipment,  
Sample Preparation,  
Molecular Cloning Kits,  
Transposomics,  
In vitro Transcription,  
Gene Expression Analysis,  
PCR,  
Gel Electrophoresis,  
Oligo Synthesis,  
Clinical Diagnostics

### Visiting address:

Address: Scotland Road  
Postalcode: CB23 8AR  
City: Cambridge  
Country: United Kingdom

Phone nr. +44 (0)1954 210 200  
Fax nr. +44 (0)1954 210 300

### Active in region:

West Europe

### World wide subsidiaries:

### Location

### Postal address:
