BIOTECHNICA	Description
-------------	-------------

## BIOTECHNICA

**Evolution of business and research  
Evolution means better Results with  
less Effort**

### Website

<http://www.biotechnica.de/> [2]

BIOTECHNICA is Europe's top annual meeting-place for business leads and knowledge transfer. This is where businesses find new customers and partners for their products and solutions, ideas find investors to take them up, and the latest research findings find a ready audience of interested professionals.

Besides numerous small specialised biotech companies, also the global players in biotechnology shouldn't be missing. Here you will find the list of the Top 25 companies that will exhibit at BIOTECHNICA 2010.

Various country pavilions such as Baden-Wuerttemberg, Bavaria, Berlin-Brandenburg, Lower Saxony, Switzerland, France and the Netherlands have already registered or accepted to attend.

### **Bioinformatics, Molecular Diagnostic, Protein and Antibodies**

BIOTECHNICA features a joint pavilion for Bioinformatics, Molecular Diagnostics, Protein and Antibodies within the exhibition hall. The pavilion offers a convenient, easy and cost-effective way to exhibit. All the main logistics are taken care for you, leaving you free to concentrate on marketing your products and services. Become an exhibitor! You will find detailed information about the joint pavilion and registration forms under Download on the right.

Country	Start date - End date
Germany	Tuesday, October 5, 2010 - Thursday, October 7, 2010
Location	Contact information
