ISO certifications:

Company description:

Your partner in antibody development, manufacturing and production
We offer free consultation to meet your needs, in areas where we have expertise and capabilities to meet those needs.

Our areas of expertise are the following.

- Cell Line Development
- Protein Expression
- Immunoassays
- Bioprocessing & GMP Production
- Assay Development

A contract antibody research, development and production service provider for academia, diagnostics, biotechnology, pharmaceutical, veterinary, agriculture and food industry. Antibody Research Corporation is founded and managed by scientists with more than 25 years of combined experience in hybridoma and antibody development. We offer a comprehensive range of contract immunology services. Consistant with NIH recommendations we use alternative in vitro antibody production methods. We want to share our expertise and experience in the field with you.

Company specialty:

Antibodies Incorporated is owned and operated by employees who have many years of experience in animal care, antiserum production, immunochemistry and related services applicable to aiding the academic or industry research scientist to save time and money in pursuit of their scientific goals. Having developed and manufactured our own diagnostic kits for many years has given us experience that is highly regarded in developing new assays and for contract manufacturing.
