Medica

World Forum for Medicine

Website

<http://www.medica-tradefair.com> [2]

MEDICA is the center of attraction for all those involved in the health care industry. More than 138,000 visitors from well over 100 countries are expected to again obtain information on all the current and future trends in in-patient and out-patient care at this annual event. With its extensive ancillary program, numerous special events, two major congresses and the largest product display in the industry, MEDICA is the hub of the medical trade.

MEDICA regularly features around 4,300 exhibitors from around the world displaying their OEM products and services over an exhibit area consisting of 18 halls and spanning nearly 1.3 million net square feet of exhibit space. And what's more: with an expected 450+ exhibitors from the United States of America and Canada, North America will offer one of the leading foreign contingents of exhibitors represented at MEDICA 2010 - making it the strongest medical industry trade fair outside of the North American continent for U.S. and Canadian companies.

Whether you are a market leader or an innovative newcomer, use the opportunity to present your products and services to an informed audience. Make the decision to be successful in the global medical market and register as soon as possible!

Country	Start date - End date
