Company profile:

**Distributor
Instruments tools and equipment**

Company activity:

Company description:

LuBioScience was founded at the end of 2004 and started being operationally active by the 1st of January 2005. It was established out of the former Juro Supply GmbH, a well known and successfully operating specialist in the distribution of Life Science reagents and products Europe wide. Today we are located in Lucerne, the centre of Switzerland, where we maintain our major stock. Beside our focus on our home market Switzerland, we maintain strong relationships and contacts throughout Europe. With over 30 years of experience in Marketing & Sales of Life Science Reagents in Switzerland and Europe, we know our clients and our suppliers' expectations, which we are daily working hard to meet. Our experienced and motivated team stands for efficiency and professional service.

Lubio – Your regional distributor for all Invitrogen products

Company specialty:

LuBioScience has a long experience and tradition in establishing distribution networks throughout Europe. We offer not only the establishment of such networks, no, we offer also the management plus the logistic solution for a professional storage and delivery service. We maintain strong, long-term contacts to local partners within many individuals countries which allow to achieve synergies by combined M&S activities and cost effectiveness.
