Title

FP7-KBBE-2013-7-single-stage

Start date: Tue, 2012-07-10
[2] Budget: 341 350 000
Deadline: Tue, 2013-02-05

Technical Call:

Life sciences, biotechnology and biochemistry for sustainable non-food products and processes

Area 2.3.1 Novel sources of biomass and bioproducts

Area 2.3.2 Marine and fresh-water biotechnology (blue biotechnology)

Industrial biotechnology: novel high added-value bio-products and bio-processes

Biorefinery

Environmental biotechnology

Emerging trends in biotechnology

Specific Programme(s):

Theme:

Environmental biotechnology, including new ways to protect and improve the environment. The focus is on bioremediation, utilisation of agroindustrial wastes and by-products, as well as the development of cleaner industrial products and processes, for example based on the use of enzymes (biocatalysis). The development of enabling and converging technologies, such as nanobiotechnologies, bioinformatics and systems biology, will be taken on board within this activity.

Restrictions to Participation:

Eligibility and Evaluation:

More information:

Cooperation and coordination on a global scale is required to manage the novel issues raised by life sciences and biotechnology, as well as the diversity of capacities and policies in different countries towards their application. Since 1990, the EC-US Task Force on Biotechnology Research has been operating as a forum for the coordination of activities and development of new ideas. Furthermore, collaboration with researchers from Russia, India, China, Latin America and other third countries is intensifying during FP7.
