## Company profile:

**Manufacturer**  
**Research & Development**  
**Instruments tools and equipment**

## ISO certifications:

**ISO 9001**  
**ISO 13485**

## Company activity:

**Diagnostics at Beckman Coulter, Diagnostics Today Online, Automation and Information Systems, Blood Banking, Chemistry, Flow Cytometry, Hematology, Hemostasis, Immunoassay, Immunochemistry, Integrated Systems, Molecular Diagnostics, Rapid Test Kits, Genomics, Capillary Electrophoresis, Cell Research, Centrifuges, Laboratory Automation, pH Meters and Electrochemistry Meters, UV/Visible Spectrophotometers, Analytical Instruments, Flow Cytometry, Biopharma Solutions, Industrial Solutions, Particle Characterization**

## Company description:

Beckman Coulter develops, manufactures and markets products that simplify, automate and innovate complex biomedical testing. Our diagnostic systems are found in hospitals and other critical care settings around the world and produce information used by physicians to diagnose disease, make treatment decisions and monitor patients. Scientists use our life science research instruments to study complex biological problems including causes of disease and potential new therapies or drugs.

Hospital laboratories are our core clinical diagnostic customers. Our life science customers include pharmaceutical and biotechnology companies, universities, medical schools and research institutions. Beckman Coulter has an installed base of more than 200,000 clinical and research systems operating in laboratories around the world. Recurring revenue, consisting of consumable supplies (including reagent test kits), service and operating-type lease payments, represent about 80% of the company's 2009 revenue of \$3.26 billion.

## Company specialty:

Clinical chemistry systems, blood cell analysis systems, immunochemistry systems, centrifuges, rapid test kits, reagents and quality control chemistries, centrifuges and rotors, capillary electrophoresis systems, protein purification systems, DNA synthesizers and sequencers, biorobotics workstations, flow cytometry systems, high-performance liquid chromatographs, scintillation systems, spectrophotometers, laboratory automation systems and software.

## Visiting address:

## Location

Address: 250 South Kraemer Boulevard  
Postalcode: 92821-6232  
City: Brea  
Country: United States

Phone nr. See our website for the specific contact number  
Fax nr. See our website for the specific fax number

#### Active in region:

Asia  
Africa  
West Europe  
East Europe  
Middle East  
North America  
South America  
Australia

#### World wide subsidiaries:
