Company profile:

Distributor
Contract research

ISO certifications:

Company activity:

Services, Antibodies, Proteins, Kits, Small Molecules

Company description:

Based in Cambridge, one of Europe's largest bioscience hubs, Biorbyt has a simple yet challenging mission: to provide the best service to the global scientific community.

As a team of scientists with many years of bench experience, we know first hand the issues you face every day. That's why we've been working with some of the world's finest researchers and academics to develop products of the highest quality. And that's why we carefully manufacture and meticulously test a wide range of reagents to meet your needs, whatever they are.

Our dedication doesn't stop there. We also collaborate, swap ideas and offer reagents that have been extensively tested in areas some of our competitors can't offer. So whether you need antibodies or Elisa kits, biochemicals or a custom request, you can depend on us to do things differently.

Quite simply, we're keen to know what you need so that our expert scientists can meet your requirements. No matter what research area you're in or which products are of interest, we're here to help.

Getting in touch or making a purchase is just as easy. As well as offices in Cambridge, San Francisco and Shanghai, our strong distributor network means we can deliver a dedicated service close to you, wherever you are.
