4th Annual Biosimilars & Biobetters Congress 2016

Description

4th Annual Biosimilars & Biobetters Congress 2016

Oxford Global Conferences are proud to present the **4th Annual Biosimilars & Biobetters Congress, taking place on the 18th & 19th April 2016 at the Novotel London West, UK.** Together with the Proteins & Antibodies Congress and the Peptides Congress, the 3 events provide a unique opportunity for over 350 global leaders in the biologics industry to exchange knowledge and experience, share their ideas on innovative practices, and benefit from engaging networking opportunities with peers in the biosimilars and biologics field.

The rate at which biosimilars are being developed and approved is gaining momentum, and the industry is likely to reach a projected value of up to \$20 billion by 2020. As ever more biosimilars reach the clinical and commercial stages, we will bring together key scientific and business minds to address the major challenges and most exciting opportunities that lie ahead for the industry.
